THIS MEMORANDUM OF AGREEMENT, made and entered into by the **Associated General Contractors of Illinois (AGCI)**, **Egyptian Contractors Association, Inc. (ECA)**, and **Wabash Valley Contractors Association (WVCA)** on the behalf of contractors who have so authorized them, and any other Employer who becomes signatory to this Agreement, hereinafter called the Employer, party of the first part, and the Southern and Central Illinois Laborers' District Council, and its affiliated Local Unions affiliated with the Laborers' International Union of North America, AFL-CIO, having jurisdiction in the counties enumerated in Article 4, hereinafter called the Union, Laborers' or the Organization, party of the second part.

It is agreed that the liability of the Employers who accept, adopt, or sign this Agreement, or a facsimile thereof, shall be several, and not joint, and the liability of the Laborers' Local Union, who accept, adopt or sign this Agreement or a facsimile thereof, shall be several and not joint.

ARTICLE I

DECLARATION OF PRINCIPLES

All parties to this Agreement believe that a uniform Agreement, if adopted by all Employers and all Union(s), would further the interests of the construction industry, and further believe that such a uniform Agreement should contain the following eight principles:

1. That there shall be no limitation as to the amount of work a man shall perform during his working day.
2. That there shall be no restrictions on the use of equipment, tools or appliances.
3. That there shall be no restrictions of the use of any raw or manufactured materials, except prison made.
4. That no person shall have the right to interfere with workmen so as to impede the progress of work, during working hours.
5. That the foreman shall be the agent of the Employer.
6. That workmen are at liberty to work for whomsoever they see fit, but that they shall demand and receive the wage agreed upon as hereinafter set out.
7. That the Employers are at liberty to discharge, for just cause, whosoever, they see fit.
8. That in order to give the public the lowest possible construction cost, consistent with fair wages and fair conditions of employment for workers, jobs shall not be created to afford employment.

ARTICLE II UNION SECURITY

All present employees who are or become members of the Union shall remain members as a condition of their employment. All present employees who are not members of the Union and all employees who are hired hereinafter, shall become and remain members of the Union as a condition of such employment, after seven (7) days following the beginning of their employment or the effective date of this contract, whichever is later, as authorized in Section 8 (a) (3) of the Labor Management Relations Act of 1947, as amended, and Section 705 of the Labor Management Reporting and Disclosure Act of 1959. Upon written notice from the Union, notifying the Employer of the failure of any employee covered by this contract to complete or maintain his membership because of non-payment of dues and fees, the Employer shall within twenty-four (24) hours of such notice discharge said employee. Provided further, that no Employer of the Union shall discriminate against any employee to whom membership was not available on the same terms and conditions generally applicable to other members of the Union or if membership was denied the employee for reasons other than failure of the employee to tender the periodic dues and the initiation fees uniformly required as a condition of acquiring membership. Recognizing that the Construction Craft Laborer is an apprenticeable craft and that all new members must make application through the apprenticeship program.

ARTICLE III REFERRAL CLAUSE

The Union and the Employer recognize that the Union is in a position to aid the Employer in recruiting needed Laborers

who can meet the standards of the trade and who can promote the efficiency and safety of the operations of the Employer, and shall use the facilities of the Union referral office to recruit job applicants exclusively. On all major projects the Contractor and the Union agree there will be a pre-job conference if either party so requests.

In order to maintain an efficient system of production in the industry to provide for an orderly procedure of referral of applicants for employment, and to preserve the legitimate interests of Laborers in their employment, the Employer and the Union agree to the following plan of referral of applicants for employment.

1. Employers shall have complete mobility of employees within the jurisdiction of each Local Union, provided they are members of that Local Union, subject to the Union's right to appoint a steward as provided in Article 12.
2. Except for the key men on the project or job which shall be 50% of 4 and any additional number of key men shall be determined in a pre-job conference or an agreement between the Employer and the Business Representative of the Union, the Employer shall notify the Union of its need for other Laborers. At no time shall the number of key men exceed the number of referred Laborers on any project or job. The Employer shall not recruit or hire applicants directly. It is agreed that the Employer shall be free to move key men without restriction to and from Illinois Districts #7 and #9 without restriction as to membership in good standing of one of the Local Unions affiliated with the Southern & Central Illinois Laborers' District Council.

3. Employers may request former Laborers for referral to a job or project, and the Union referral office shall refer said former Laborers to the job or project provided they are properly registered applicants in the referral office, are available for work at the time of the request, and have been employed by the requesting Employer under the terms of this or previous agreements within twenty-four (24) months prior to the request.
4. The Employer retains the right to reject any job applicant referred. The Employer shall have the right to determine the qualifications of his Laborers and shall have the right to hire and discharge accordingly. Hiring of Laborers shall be on a non-discriminatory basis, and shall in no way be affected by Union or membership, bylaws, rules, regulations, constitutional provisions or any other aspect or obligation of Union membership, policies or requirements.
5. Registration and referral of applicants shall be on a non-discriminatory basis, and shall in no way be affected by Union membership, bylaws, rules, regulations, constitutional provisions or any other aspect or obligation of Union membership, policies or requirements.
6. The Employer in requesting referrals shall specify to the Union (a) the number of employees required, (b) the location of the project, (c) the nature and type of construction, demolition, etc. involved, (d) the work to be performed and (e) such other information as is deemed essential by the Employer in order to enable the Union to make proper referral of qualified applicants. All special requests shall be followed up in writing, by facsimile or company form.

7. The Union shall register and refer all applicants for employment covered by this contract on the following basis:

(a) The Union shall require all job applicants who have not previously registered to submit a resume in writing on forms of their experience and qualification, in order to determine their ability and whether they are qualified to perform the requisite work of the Laborers.

(b) The Union shall maintain lists which shall contain the names of applicants in the order in which they register for employment. The opportunity for new applicants to make application to the apprenticeship program shall be on a non-discriminatory basis. The hours of registration and the rules of procedure of registration and referral shall be posted where such notices are customarily posted including the office where referral are made.

(c) The Union shall refer applicants in the order of their places on said list and by qualification. Any applicant who is rejected by the Employer to whom he was referred, shall be restored to his place on the list. When any referred applicant is actually employed on a job for more than three (3) days, such referred applicant's name shall be removed from said list until such time as his employment has been terminated at which time his name shall be placed at the bottom of the list. If a registrant, referred for employment in regular order, refuses to accept such referral or employment, his name shall be placed at the bottom of the list.

(d) Neither the Union, its agents, nor the referral office undertakes or assumes any obligation to locate or search for any applicant whose name appears on the registration or referral lists, if such applicant is not available when referrals are made.

(e) The Employer may request Laborers possessing special skills and abilities, in which case the Union shall refer the first applicant on the list who possesses such special skills and abilities. The Employer shall confirm such request in writing to the Union within twenty-four (24) hours following an oral request.

(f) In the event that the referral facilities maintained by the Local Union are unable to fulfill the request of an Employer for qualified Laborers from within that Local Union, the Employer shall request Laborers from the District Council and recall rights of Laborers from other Local Unions within Highway Districts #7 and #9 will be allowed. Employers shall give Local Unions twenty-four (24) hours notice when requesting referrals.

(g) A referred applicant shall be considered a Laborer only after being actually hired by the Employer. In case an Employer finds just cause to discharge a worker who has been employed and whose work has proved unsatisfactory, the Employer must inform such Laborer of the reason for such discharge.

8. In the event that any job applicant shall claim discrimination, he may, within ten (10) days following the occurrence of the event which constitutes the basis for his claim, file with the parties so charged, a written complaint clearly and specifically setting forth the discrimination charged. The other party shall be notified immediately and given a copy of the complaint. A tribunal consisting of a representative of the AGC of Illinois and a representative of the Union and impartial chairman appointed by the Employer and the Union jointly, shall consider the complaint and, within three (3) days, render a decision which shall be final and binding. The tribunal is authorized to make and issue

procedural rules for the conduct of its business, but is not authorized to add to, subtract from or modify any of the provisions of this Article, and its decisions shall be in accord with the Labor Management Relations Act, as amended.

9. The parties to this contract shall post in places where notices to Laborers and applicants for employment are customarily posted, all provisions of this contract relating to referral procedures and Union security.
10. The Employer shall recognize the Union referral office in the geographical area in which the job or project is located. When a job or project is located within the geographical area of more than one Local Union, the determination of the number of Laborers to be procured through referral from offices of the respective unions, shall be made by agreement of the Business Representatives of the Union and the Employer at a pre-job conference provided that such agreement does not conflict with any state or federal law. In the event that the said parties are unable to reach an agreement on the question, the issue shall be submitted under the Grievance and Arbitration Article of this contract.
11. The Employer shall have and retain the full and unrestricted right to employ or not employ any job applicant procured, recruited or referred by the Union under this Article. Upon request the Employer agrees to mark any rejected job applicant's referral slip "rejected".

The Employer may hold the men on the job but shall not require them to perform any work in inclement weather unless provided proper protection. The reporting time for Saturdays, Sundays and holidays shall be as stated above. However, in the event inclement weather or equipment breakdown causes stoppage of work on those days, Laborers will be paid for time actually worked, but in no event less than two (2) hours at the rate applicable for that day.

Ten Hour Day Schedule. In the event inclement weather or equipment breakdown causes stoppage of work in this schedule, Laborers will be paid for time actually worked, but in no event less than two (2) hours. Laborers would be required to stay on the job for the time they are being paid or at their request be allowed to leave and be paid for actual hours worked.

ARTICLE X WORK HOURS AND OVERTIME

Section A. Eight Hour Schedule. A maximum of eight (8) hours shall constitute a day's work and same shall be between the hours of seven (7:00) a.m. and five (5:00) p.m., excepting work that must be performed according to specifications; all work necessary previous to or after starting of major crew or machinery, to be performed at the regular rate. In the event inclement weather or equipment breakdown causes a loss of time during these five (5) days, Friday may be used to make up the remaining hours needed to complete a forty (40) hour work week, however, no employee required to work Friday shall be scheduled to work less than an eight (8) hour shift, with all hours in excess of forty (40) for the work week being paid at the applicable overtime rate.

The Employer agrees that when using this option it shall be for the duration of the job or until the Employer notifies the Business Manager one (1) week in advance that the Employer elects to return to a five (5) day, eight (8) hour schedule for the duration of the job, and cannot be changed again unless mutually agreed upon by the Business Manager and the Employer.

the Laborers shall work seven and one-half (7½) hours and receive eight (8) hours pay at the basic rate of pay.

Section I. Special Shift. With prior notification by the Employer to the Business Manager, if a special shift is required by an owner and/or if the Employer needs to perform work which cannot be performed during regular working hours, employees may work a special shift and receive \$1.50 per hour over the base rate of pay for eight (8) hours work plus thirty (30) minutes unpaid lunch after the fourth hour. No employee may work on a special shift if he has performed bargaining unit work that day during the regular working hours. The Employer's request for this special shift must include the starting date, the approximate number of employees involved and the estimated conclusion date. Other terms and conditions may be agreed to between the Business Manager and Employer.

Jurisdictional disputes that cannot be resolved at the local level shall be referred to the International Unions involved for a determination. Pending such determination, the work will continue as assigned by the Employer. Any determination made pursuant to this provision shall be final and binding on the disputing Unions and the involved Employer on this project

only. A signatory contractor shall not be liable for back pay in the event an arbitrator renders a decision awarding the work to a different trade. However, the signatory contractor will be required to adjust the work assignment to comply with the award and will be liable for back pay from the date of the award should it fail to follow the arbitrators decision. Such a determination shall not establish a precedent on other project sites. In resolving such disputes, it will be recognized that the Employer continues to determine crew sizes.

ARTICLE XV PAY DAY

Section A. The Employer shall pay the Laborers every week, the pay day to be chosen by the Employer and shall be within four (4) days from the end of the fiscal week.
